

## **COMPANY PROFILE OF TECHNO-SYSTEMS GHANA (TSG) LTD.**

The year was 1995 and Ghana was on the threshold of becoming a lower middle-income country. It was the vision of those who established TSG that infrastructure development would be a priority for the country for a long time to come. TSG therefore came into existence bringing on board its rich experience of its creators in project acquisition, project management and execution, to infrastructure development in the Ghanaian economy. TSG has since its establishment proven its mettle as an astute project sub-contractor to major international partners.

TSG is proud to have partnered major international companies for the execution of the following projects:

### **TSG IN PARTNERSHIP WITH SIEMENS ATEA OF BELGIUM**

- TSG partnered Siemens-ATEA of Belgium to execute the design and installation of the Electronics and Telecommunications Systems at the Kotoka International Airport for the Ghana Civil Aviation Authority. Siemens ATEA of Belgium was the Main contractor and TSG was the subcontractor for the project.
- TSG as sub-contractor has installed, tested, and commissioned a number of Fibre Access Networks as well as equipment and services for Digital Subscriber Line (DSL) technology, Internet Service Platform, and Intelligent Multi Access Platform for Ghana Telecom, now Vodafone Ghana, in partnership with Siemens Atea.
- TSG and Siemens ATEA executed the V-SAT Wide Area Network for the Budgetary and Public Expenditure Management System (BPEMS) of the Ministry of Finance.
- Installation and commissioning of 63 Nos. Microwave Access Networks links (PH - 16) for Spacefon, now MTN, in Ghana.

### **TSG IN PARTNERSHIP WITH SOULCO PROJECTS NV OF BELGIUM**

- TSG installed all equipment on behalf of Soulco Projects NV for the Ghana Parliament Rehabilitation Project - Supply and Installation of Electronics and Telecommunications Equipment.
- TSG partnered Soulco Projects NV of Belgium for the Supply and Installation of ICT Equipment in the Administrative Building of the Parliament of Ghana (State House Project, commonly called JOB 600 Project)

### **TSG IN PARTNERSHIP WITH CG HOLDINGS NV OF BELGIUM**

TSG is providing local Project Support to CG Holdings of Belgium NV for the execution of the Kpando-Kadjebi Power Project (KKPP) which involves the construction of a new 80km transmission line from Kpando to Kadjebi for the Ghana Grid Company (GRIDCo). The project

also involves the construction of a new sub-station at Kadjebi and the expansion of the existing sub-station at Kpando.

TSG is certainly abreast of the fast paced 21st century world and we are poised to ably maintain our position as a most trusted partner in delivering custom-made world class products and services to our cherished customers and prospective ones.

#### **TSG IN PARTNERSHIP WITH ADB AIRFIELD SOLUTIONS OF BELGIUM**

TSG installed the Aerodrome Ground Lighting (AGL) Systems for the Kumasi and Takoradi Airports, in Ghana. ADB was the main contractor and TSG was the project sub-contractor.
